

2025 Membership Benefits

Year-Round Responsive Programming & Networking

Program topics are informed by our membership, ensuring that they are responsive to your needs. Members receive access to all programs, which include:

Speaker (formerly Breakfast) Series: Regular panels exploring a big theme through different perspectives offered by a range of primarily Chicago-based experts. High-level learnings are shared widely.

Community Conversations: Members with successful new approaches to advancing their mission share their model and insights with others.

Demystifying Social Impact Careers: Featuring social impact leaders sharing candid insights into their journey, this is primarily for those in early stages of their career or looking to make a career change.

Member Meetups: Informal, workshop-type deep dive into a popular Speaker Series or other topic suggested by a member. Facilitated by a SRC Board Member.
